2Cupcakes:PlottingAgainstUs?

is a strong password.

Make a strong password in three steps:

1 Choose five letters at random. *Example: T, C, P, A and U.*

2 Create a memorable phrase using those letters to start each word

3 Count to make sure it's over 20 characters.

Remember!

🔑 Use unique passwords for every account, never reuse them!

🔑 Password managers can create and store passwords for you.

Small Actions.
Big Difference.
You help keep Harvard secure.
